

The Elite 63 is one of Spectus' leading products. Following extensive research in technology, legislation and thermal efficiency, the Elite 63 is a complete suite of component parts, which enables the design, manufacture and installation of a full range of window door and conservatory components, all from the same system. This attention to detail provides simplicity in design and fitting for your installer and unrivalled style and choice for you. Plus results in a consistent aesthetic finish throughout your property.

Key features

- Choose from either Chamfered or Ovolo designed profiles to create a consistent finish across all areas of your property
- Market leading multi chambered profile provides increased thermal efficiency
- Post Co-Extrusion (PCE) Flexible gaskets are securely pre-fitted to the profile during manufacture to prevent any shrink back through ageing. This provides extended performance and keeps your windows in optimum condition for longer.
- Glazing options from 24mm - 40mm providing a choice of thermal and acoustic solutions
- Window Energy Rating of band A can be achieved through flush glazing. This not only maximises Window Energy Rating but also improves the aesthetic finish
- Complete system with a full range of aesthetic accessories such as Georgian Bars and Decorative Horns
- The Elite 63 shares common details with Spectus' Patio doors and Reversible 70 products resulting in compatibility across all product ranges, providing you with more choice and a consistent finish
- Spectus profiles are extruded in accordance with BSEN9001:2008 and kitemarked under licence BSEN12608

Efficiency - together, we're doing our bit

Spectus PVC-U systems can achieve a Window Energy Rating of band A. Through continuous evaluation and improvements in design and quality testing, we have devised a suite of products that maximises the retention of solar heat gain within the property, whilst minimising any thermal and air loss. And because our systems are designed to provide high levels of energy efficiency, you'll benefit from reducing your carbon emissions and the ability to lower your heating bills.

Spectus is good for the environment

- Our windows and doors provide an outstanding barrier against heat and noise loss - even in the most extreme weather conditions.
- Windows and doors made from PVC negates the use of timber, protecting the planets trees.
- We recycle our own waste and generate new products whilst still retaining the highest standards in quality of material.
- Our windows and doors do not require painting and therefore don't consume additional harmful materials or generate associated waste.
- Our entire manufacturing process - from production to installation - is confined to the UK and Ireland thereby minimising transportation and fuel consumption from wider exportation.

Fully committed to ISO 14001 standards covering all environmental issues

The difference is clear to see

Windows

Spectus profiles can be combined to create a diverse range of window frame styles. Whatever the style and age of your property - from a contemporary modern build to a period house - its possible to create windows to complement the style of your home.

When you choose Spectus windows you'll benefit from:

- A choice of Chamfered or Ovolo frames
- Full range of window styles available including Casement, Tilt & Turn, Vertical Slider and Reversible
- All window components are compatible with Spectus' full product range
- PCE concealed gaskets provide a superior seal for improved weathering protection

- Flush glazing provides improved Window Energy Ratings and an enhanced finish
- Cills available in sizes 85mm, 110mm, 150mm, 180mm & 225mm
- Bespoke design and planning service to cater for your individual needs

ELITE 63

Spectus profiles can be combined to create any style of window to suit the style of your home. With a range of practical openings, colours and choice of glass, Spectus systems allows you to create a home as individual as you.

Casement

Casement Windows are traditional, open out, top or side hung openers. The size and style can be tailored to your openings according to the position of your window and the space available.

Tilt & Turn

Style and practicality. Spectus' Tilt & Turn system allows the window to be tilted inwards for ventilation or hinged inwards to allow cleaning from the inside.

Vertical Slider

Combines period charm with modern practicality. The Spectus Vertical Slider is a PVC-U sliding sash window manufactured to provide all the technical benefits of PVC-U without compromising on period design and quality.

Reversible 70

The Reversible 70 from Spectus is a fully reversible PVC-U window that is ideal for properties with windows in locations that have restricted access. Manufactured from the Reversible 70 stand-alone range of profiles.

10 YEAR GUARANTEE

All Spectus systems come with a 10-year guarantee irrespective of configuration, colour, style or finish.

All Spectus window profiles are available in a range of colours so you can tailor the finish according to the individual style of your property.

FINISHES AVAILABLE

Other colours and woodgrain foil finishes available. Speak to your installer for more information.
